

48100 lithium iron phosphate energy storage battery weight

IBUE-48100 is a 19-inch 2U 100 Ah rechargeable lithium iron phosphate battery designed for applications such as telecom power systems, energy storage, renewable energy, and hybrid power solutions. It features high energy density, redundant safety design, long cycle life, light weight, easy to Deep Cycle applications. The CX48100 is engineered with our - High Output 3.2V Stainless Steel LiFePO4 Cells that are bolted together for Rigid Strength and Current Conductivity v . the tab welded method. The CX48100 is Plug and Play for any application that currently uses lead ac ng due to Data above is recommended and the picture is only for battery effect display, Leoch reserve the final right of explanation. ©LEOCH.All rights reserved.Trademarks and logos are the properly of LEOCH and its affiliates unless otherwise noted bject to revisions without prior notice E& OE. Longer Cycle Life: Offers up to 10 times longer cycle life and five Times longer float/calendar life than lead acid battery, helping it minimize replacement cost and reduce total cost of ownership. Lighter Weight: About 40% of the weight of a comparable lead acid battery. A'drop in' replacement for The HV48100 distributed energy storage system adopts high-performance LFP energy storage battery which is equipped with pytes independent battery management system that can effectively guarantee battery safety, with a cycle life of over 6,000 times and a cycle efficiency of up to 95%. Full charge MUST wall mounted Lithium battery (LiFePO4 battery) solutions are highly integrated, deep cycle backup power solutions for your solar home energy storage system. With rich experience and advanced techniques, the product has the features of the fashionable design, high energy, high power density TECHNICAL SPECIFICATIONS If the battery gives of a strange odor, generates heat, becomes discolored or deformed, or in any way appears abnormal during use, recharging or in storage, imme-diatly stop charging or ALFP-48100(48V 100Ah) Lighter Weight: About 40% of the weight of a comparable lead acid battery.
