

## lexus ct200h energy storage device model

What makes the Lexus CT 200h so special?The CT 200h delivers astonishingly smooth performance and low CO2 emissions from just 82 g/km. It achieves this by orchestrating a combination of super-efficient 1.8-litre petrol engine, high-output electric motor, compact battery, seamless hybrid transmission and a power control unit. More information: [.lexus.no/hybrid](http://.lexus.no/hybrid) Does the Lexus CT 200h have a battery?Using proven and reliable nickel-metal hydride technology, the Lexus Hybrid Drive system's 202V, 36 DIN hp (27 kW) battery allows the new CT 200h to operate in EV mode, driving under electric motor power alone. Located beneath the rear loadspace floor, the fan-cooled battery pack size has been minimized to reduced impact on cabin accommodation. How fast does a Lexus CT 200h go?In combination, the Lexus Hybrid Drive system's petrol engine and electric motor generate a total system power output of 134 hp (100kW). Via an ECVT, the CT 200h will accelerate seamlessly from 0-60 mph in 9.8 seconds , and reach a maximum track speed of 112 mph. When did the Lexus CT 200h come out?Lexus has trademarked the names CT 200h, CT 300h, and CT 400h. The design by Takeshi Tanabe was approved in and patented on 11 September . Production began in January and European sales following shortly after. Japan sales began on 12 January , while US sales began in March . How does a CT 200h hybrid system work?The CT 200h's hybrid system features a 1.8-liter VVT-i gas engine, a powerful electric motor, a generator, a high performance Ni-MH battery, a power control unit, and a power split device which employs a planetary gear set to combine and re-allocate power from the engine, electric motor and generator according to operational requirements. Lexus CT 200h Hybrid DriveLexus Hybrid Drive equips the CT 200h with impressive, seamless acceleration and remarkably quiet operation, yet returns high fuel efficiency and excellent emissions. Lexus Hybrid Drive Unique Energy Management SystemElectric Power Steering (EPS) The Lexus CT 200h is equipped with Electric Power Steering (EPS), its energy saving and lightweight design characteristics making it ideally suited for use CT 200hThe CT 200h delivers astonishingly smooth performance and low CO2 emissions from just 82 g/km. It achieves this by orchestrating a combination of super-efficient 1.8-litre petrol engine, Lexus 200h energy storage device model Detailed specs and features for the Used Lexus CT 200h Base including dimensions, horsepower, engine, capacity, fuel economy, transmission, engine type, cylinders, drivetrain Lexus ct200 energy storage device The Lexus CT 200h uses a 202V, 36 DIN hp (27 kW) battery as part of its Hybrid Drive system. This battery allows the vehicle to operate in EV mode, driving under electric motor power alone.
