How many energy storage projects are there in Europe? The European Energy Storage Inventory provides impressive figures on the current state of energy storage capacities in Europe. According to the platform, 905 projects with a total output of 66 gigawatts are currently in operation. What is the largest energy storage project in Europe? Particularly noteworthy is the ambitious project in Alfeld (Lower Saxony), which is considered the largest approved storage project in Europe with a performance of 137.5 megawatts and a storage capacity of 275 megawatt hours. What is the European energy storage inventory? The European Energy Storage Inventory presents itself as an interactive and user-friendly dashboard, which enables a detailed recording and presentation of energy storage projects across Europe. The platform offers extensive filter functions that allow users to sort and analyze the data according to various criteria. How much energy storage will Europe need by 2030? In a larger context, Europe will need a total of 187 GW of energy storage capacity by 2030, including 122 GW of battery storage capacity. These ambitious goals underline the central importance of energy storage for the European energy transition and illustrate the enormous economic potential of this sector in the coming years. What is the future of home storage in Europe? The European market for home storage is developing even more dynamic. Solarpower Europe expects an increase in total storage capacity by 300% to 32.2 GWh by the end of 2025, which corresponds to the supply of 3.9 million European households. How big is the home storage market in Europe? The home storage market has impressive growth throughout Europe. According to calculations by Solarpower Europe, the storage capacity increased by 71% (3.9 GWh) in 2024, which corresponds to more than 420,000 new storage batteries. Top 50 European energy storage companies Energy Vault, a global energy storage group, recently announced it has partnered with Carbosulcis S.p.A., a government-owned coal mining company in Sardinia, to develop a 100 MWh storage facility.
